Editor's Reasons For Success

The editor of a country newspaper retired with a fortune. When asked the secret of his success, he replied:

"I attribute my ability to retire with a \$100,000 bank balance, after 30 years in the country newspaper field, to close application to duty, pursuing a policy of strict honesty, always practicing rigorous rules of economy, and the recent death of my uncle who left me \$98,500."

Consider your Adam's Apple!!* Don't Rasp Your Throat With Harsh Irritants

Marie Steiner
LOUISVILLE, KY.

"Reach for a LUCKY instead"

When you visit your physician for your periodic health examination, one of the very first things he asks you to do is to open your mouth wide, and to say "Ah." He is examining the delicate lining of your throat. "Ah!" There is not a man or woman who could even make this simple sound, if in the throat there were no Adam's Apple. For your Adam's Apple is your larynx—the voice box containing your vocal chords. And what a delicate piece of Nature's handiwork the Adam's Apple is. A slight cold—even a tiny particle lodged in the throat—and our voice often grows husky. In acute cases, we may even lose our voice for several days. Don't rasp your throat with harsh irritants—Reach for a LUCKY instead—remember, LUCKY STRIKE is the only cigarette in America that through its exclusive "TOASTING" process expels certain harsh irritants present in all raw tobaccos. These expelled irritants are sold to manufacturers of chemical compounds. They are not present in your LUCKY STRIKE. No wonder 20,679 American physicians have stated LUCKIES to be less irritating. LUCKIES are always kind to your throat. And so we say "Consider your Adam's Apple."
